

My name is John Bumgardner and I invented Jingle Clean®! Jingle Clean® is an all natural stain remover/deodorizer, and cleaner that can be used on a variety of things. Jingle Clean® came into existence from an event some would call tragic, but I know it as a miracle. I was a professional musician performing with a major recording artist in the 1990's. I was also an artist manager, managing well known recording artists. At the height of my career, I had been diagnosed with high blood pressure. I was prescribed a blood pressure medicine and told by my doctor to take a pill before I went to bed for the night. I awoke unable to open my eyes, and when I finally got them open, I saw my body was swollen beyond belief. I was immediately foggy in my thoughts because I had had a stroke. I soon realized I couldn't remember much at all. I couldn't remember how to play music anymore. But God is good! After several months, I was able to start playing again a little at a time. About every six months I would have what I called an awakening. The first one I distinctly remember was the time I was taking a walk outside my home and for the first time since the stroke I heard the birds and insects making what sounded like music to me! I took that as a sign that I would be able to play my instruments again. The second miracle was receiving the gift of playing music again, but this time as only God could do, better than before. As these awakenings continued to occur, I soon realized I was having invention ideas, I had never had before. This is how Jingle Clean® came into existence. Only God could inspire a cleaning solution that is so powerful to take out stubborn stains and yet be so safe! I am in awe every morning I wake up at the power of Jesus Christ! Grateful is an understatement for the love I received from that life altering moment in time. This is the miracle that is Jingle Clean®!
